WALLPAPER CUE
QUERCUS & CO
"CROSSHATCH
NO.3"

NATIVE

The sight and scent of eucalyptus trees, our dominant flora, are quintessentially Australian – the wallpaper in this bedroom is reminiscent of a band of eucalyptus and dappled sunlight. The look is fresh and restful, perfect for a bedroom. The muted green is offset by contemporary, pretty peach bedlinen, from Sydney-based In Bed, and a burst of red in the flowering gum on the bedside table, which is from local design firm fave Jardan. The simple lines of the bed – from more locals, Mr & Mrs White – echo the “less is more” ethos of Sydney artist Jordanna Henry, whose work is on the wall. Like the Aussie landscape, the look is open, airy, magnificent. 🌿
